

# MEET OUR EXPERTS

## THE TEAMS AT CARMEUSE SYSTEMS

# WE ARE YOUR TRUSTED PARTNER

for anything related to lime and lime-handling

**Our purpose is simple:** to be the team you rely on to answer questions, solve problems, and provide the expertise that you need—whenever you need it. Whether you are looking for lime handling equipment or just guidance on lime use and system optimization, **we are your trusted technical advisors.**

## Get to know the teams that make what we do possible:

### SALES

Your Sales partner has a deep understanding of your market, chemical reagents used, and application. Their goal is to understand every aspect of your needs and pull in our experts to develop the right solution.

### APPLICATIONS

Your Applications Engineer is an expert in reagent processes and dry bulk material handling. They'll visit your site to understand its unique challenges and work directly with your operations and maintenance teams to troubleshoot issues, provide informed solutions, and ensure your system runs efficiently.

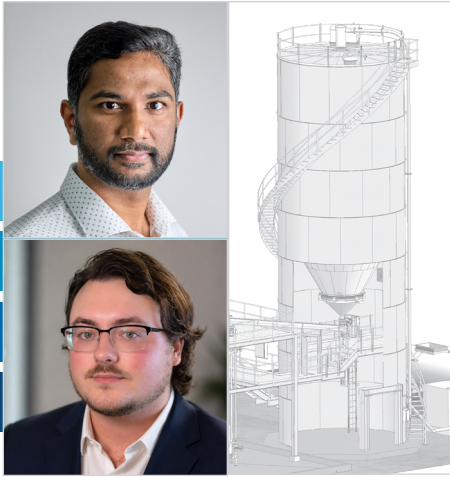

### LABORATORY TESTING

Through our Innovation Center, you gain access to laboratory testing that verifies your system's performance. From water-quality analysis to evaluating lime quality, our robust testing capabilities help ensure your system delivers the results you expect.

## MEET OUR EXPERTS

### THE TEAMS AT CARMEUSE SYSTEMS

#### PROJECT MANAGEMENT & ENGINEERING

Your Project Manager ensures that every aspect of your project is carefully and expertly curated and organized, each component is thought through, and keeps your project moving on track.

Your Engineering Team works diligently to create systems and solutions that perfectly suit your site and application needs.

#### ELECTRICAL, INSTRUMENTATION, & CONTROLS (EI&C)

Your EI&C Technologist will come on-site as your system is being installed to handle the commissioning, controls, and training of your team.

Sometimes staying on-site for weeks at a time, their role is to ensure your operators are set up for success and your system is ready for start-up.

#### INSIDE SALES & POST COMMISSIONING SUPPORT

Your Inside Sales team provides ongoing post-commissioning support through streamlined parts ordering, guidance on critical spares, and timely assistance for your systems' evolving needs. Their expertise helps your operation stay prepared, reduce downtime, and ensure lasting equipment performance.

## Advice. Support. Solutions.

### Your Trusted Partner in Every Lime Handling Decision

At Carmeuse Systems, we're committed to being your trusted advisor for every lime and lime-handling need - even if you don't have one of our systems. When you have questions about material selection, system design, upgrades, or need ongoing technical support and training, we're here to share our knowledge and ensure your lime systems are optimized and operating safely.
